

13TH INTERNATIONAL CONFERENCE ON

MINE CLOSURE

3-5 SEPTEMBER 2019 | PERTH, WESTERN AUSTRALIA

The series of International Conferences on Mine Closure is a fixture on the calendars of many mining professionals, providing topical and high quality papers and presentations on a range of topics of immediate interest and relevance. A key feature of the conference series is the diversity of disciplines and expertise that come together to focus on the pressing issues facing the mine closure community globally. The ACG team is delighted to host Mine Closure 2019 in Perth in September 2019!

Past conferences have been held in:

- 2016 Perth, Australia,
- 2015 Vancouver, Canada
- 2014 Johannesburg, South Africa
- 2013 Cornwall, England
- 2012 Brisbane, Australia
- 2011 Alberta, Canada
- 2010 Vina de Mar, Chile
- 2009 Perth, Australia
- 2008 Johannesburg, South Africa
- 2007 Santiago, Chile
- 2006 Perth, Australia

ABSTRACTS
DUE
21 JANUARY
2019

CONFERENCE CHAIRS

Professor Andy Fourie
Professor of Civil, Environmental & Mining
Engineering
The University of Western Australia

Professor Mark Tibbett
Professor of Soil Ecology
University of Reading, UK

Mine Closure 2018 Conference
3-7 September 2018 | Leipzig, Germany

Hosted by the Bergakademie Freiberg

Online Repository

of Conference Proceedings

Accessing geomechanical excellence

Since 2000, the ACG has published conference papers across the geotechnical mining spectrum, including: underground and open pit mining, paste and thickened tailings and mine closure.

The ACG Online Repository aims to provide the mining geomechanics fraternity with open access to peer-reviewed conference papers that may assist readers to maintain and develop their skills, knowledge and capabilities.

Many papers from previous Mine Closure Conferences are freely available on the Online Repository.

This highly interactive and searchable repository provides importable citation information in various formats, links to the paper authors' profiles on ORCID, ResearchGate and LinkedIn, as well as the ability to share papers on social media. Setting a benchmark for technology transfer and accessibility, this valuable online resource will continue to develop and grow with each new ACG event.

ACG MANAGEMENT, OPERATION AND RELINQUISHMENT OF TAILINGS STORAGE FACILITIES SEMINAR

28-29 NOVEMBER 2018 | PERTH, WESTERN AUSTRALIA

This two-day ACG seminar will address the issues facing site personnel involved in the day-to-day management of tailings storage facilities and the obligation to comply with the relevant operating standards and closure requirements. The seminar will explore the conditions and challenges encountered in day-to-day mining, innovative solutions utilised in different mining operations and environments and will include case studies, specialist presentations and discussion sessions.
