

Table of Contents

Foreword.....	vii
1 Introduction.....	3
1.1 Background.....	3
1.2 What is a soil–water characteristic curve?	5
1.3 The need for establishing a guideline for SWCC.....	5
1.4 The development of the database.....	6
1.5 Objectives of this guideline.....	6
1.6 Structure of this guideline	7
1.7 How to use this guideline	8
2 Theoretical considerations	11
2.1 Unsaturated soil	11
2.2 Particle size distribution (sieving and hydrometer)	12
2.3 Atterberg Limit tests.....	16
2.4 SWCC	16
2.5 Laboratory testing	20
2.6 Equation fitting.....	21
3 PSD envelopes for USCS classified material.....	27
3.1 Introduction.....	27
4 Gravel SWCC data for unimodal USCS classified materials	45
4.1 Introduction.....	45

5	Sand and silt SWCC data for unimodal USCS classified materials.....	67
5.1	Introduction	67
6	Clay SWCC data for unimodal USCS classified materials.....	105
6.1	Introduction	105
7	SWCC data for bimodal USCS classified materials.....	129
7.1	Introduction	129
8	Guidelines for specifying and interpreting laboratory testing.....	137
8.1	Specifying testing for PSD	137
8.2	Specifying testing for Atterberg Limits.....	137
8.3	Specifying testing for SWCC curves.....	138
8.4	Interpretation of SWCC curves	143
9	References.....	149
