International Organising and Advisory Committee	vi
Technical Reviewers	vii
Preface	ix
Sponsor	xi

Plenary addresses

Strangers in a foreign land – developing cultural closure criteria for mines in Australia’s Northern Territory	3
H.D. Smith	
Mine closure or mind closure – are mining companies meeting their whole of life cycle, triple bottom line obligations?	13
R.J. Lambeck	
A Darwinian approach to mine closure and restoration	21
A.J.M. Baker	
Away from conflict – a new paradigm for industry, regional communities, environmental organisations and traditional owners to look after the Great Western Woodlands, Western Australia	25
A.W.T. Watson, S. Judd, J.E.M. Watson	
Environmental envelopes – identifying limits affecting ecosystem management after mining	33
M.V. Fey, A.J. Mills	
Key closure planning considerations	41
G.M. Bentel	

Planning for closure

Mine closures and the global financial crisis	57
D. Laurence	
Staged approach to closure of a tailings storage facility in the Kimberley, Western Australia	65
K.L. Bonstrom, D. Chapman, D. Swain, M. O’Kane	
South Africa’s challenges pertaining to mine closure – development and implementation of regional mining and closure strategies.....	79
D.M. van Tonder, H. Coetzee, S. Esterhuysen, L. Strachan, P. Wade, S. Mudau	
Progressive closure planning at the Magellan Mine – providing some certainty in uncertain times: a case study	93
K.G.A. Blackman, N. Burne, I.C. Mitchell, H.W.B. Lacy, S. Mackenzie	
Forecast of mining companies development with respect to their reclamation duties	101
J. Dvořáček, R. Sousedíková, J. Štěrbá, R. Zapletalová	

Mine site rehabilitation in a changing climate

Determining the rehabilitation success of the old tailings storage facility of Navachab Gold Mine, Karibib, Namibia	109
U. Rentel, M. Rentel	
Evaluation of a 20–40 year old gold mine tailings rehabilitation project on the Witwatersrand, South Africa	123
A.S. Rossouw, D.G. Furniss, H.J. Annegarn, I.M. Weiersbye, U. Ndolo, M. Cooper	

Is soil carbon being sequestered along a reconstructed biodiverse Australian jarrah forest chronosequence following bauxite mining?	137
S.J. George, R. Kelly, P. Greenwood, M. Tibbett	

Soil carbon dynamics in a rehabilitated chronosequence determined by accelerated solvent extraction	145
D.S. Lin, P. Greenwood, M. Tibbett	

Financing closure

Building the business case for closure.....	157
S. Finucane, D. Pershke	

An economic analysis of environmental bonds in the Western Australian mineral sands industry.....	167
B. White, G. Doole, D. Byrd, D. Pannell	

New regulatory approaches in rehabilitation cost estimation – how successful have they been?	175
M. Woolley, A. Hutton	

An evolution of the methods for and purposes of mine closure cost estimating.....	187
J.V. Parshley, W. Bauman, D. Blaxland	

Post-closure monitoring and final relinquishment

Assessing the impact of extreme rainfall events on the geomorphic stability of a conceptual rehabilitated landform in the Northern Territory of Australia	203
J.B.C. Lowry, K.G. Evans, T.J. Coulthard, G.R. Hancock, D.R. Moliere	

Remediation of small scale uranium mining activities in the South Alligator Valley, Kakadu National Park	213
T.R. Reszat, G. Balding, M. Fawcett	

Transition of a major tailings facility in a sensitive environment – from operation to decommissioning at Brenda Mine	229
R.C. Lo, J. Stroiazzo, G. Guilleminot	

Management of mine sites after closure	245
K.A. Bocking, S.N. Kam, D.E. Welch, D.A. Williams	

Evolving closure criteria throughout the life of mine	253
D.V. Koontz	

Reducing long-term water management costs

Water quality within mine waste impoundments at an incompletely remediated Cu-Pb-Zn mine site in Korea	263
J.S. Ahn, Y-W. Cheong, G-J. Yim	

Approaches to acid and metalliferous drainage management – implications of short-term trials for long-term remediation	273
M. Stimpfl, M.L. Carrigan, M.B. McLeary, J.R. Taylor	

Wetlands treatment of mine drainage from the Tucush Valley waste dump at the high altitude Antamina Mine, Peru	285
C. Strachotta, H. Plewes, M. McBrien, L. Rey	

Ecosystem reconstruction and pedogenesis

Metal-binding particles enhance germination and radicle tolerance index of the metallophyte grass <i>Astrebula lappacea</i> Lindl. under phytotoxic lead and zinc conditions	301
L. Rossato, A. Pudmenzky, D. Doley, M. Monteiro, M. Whittaker, S. Schmidt, J. MacFarlane, A.J.M. Baker	

Development of a metallophyte spatial database covering Australia311
A. Pudmenzky, L. Rossato, D. Doley, C. Ramirez, A.J.M. Baker

Spatial distribution of fine roots on a rehabilitated bauxite residue disposal area in Western Australia317
W. Gwenzi, E.J. Veneklaas, I. Phillips, T.M. Bleby, C. Hinz

Resolving challenges in tailings closure in semi-arid deserts – a case study into the decommissioning and rehabilitation of the Tanami Mine Three Cell tailings storage facility 329
K.L. Pang, H.W.B. Lacy, R. Haymont, R. Potts

Dealing with stakeholder concerns

Assessing risks of returning mined land to grazing in the Bowen Basin of central Queensland, Australia 345
R.I. Maczkowiack, C.S. Smith, G.J. Slaughter, D.R. Mulligan, D.C. Cameron

Striving for ‘walk-away’ – focusing an expert group on the ‘holy grail’ of mine closure 359
M.B. McLeary

Tailings dust – evolution over fifty years of gold mine tailings sources and sensitive receptors on the central Witwatersrand 375
M.E. Ojelede, H. Liebenberg-Enslin, H.J. Annegarn

Turning a mined-out pit into an aesthetically acceptable community asset – a novel approach to mine closure in Ghana, West Africa 389
G.A. Darpaah, N.H. Theunissen, A. Ohene-Adu, P. Owusu-Yeboah

Political and corporate governance for effective mine closure..... 403
M. Chaloping-March

Mine closure – participatory stakeholder engagement and socio-economic closure planning for community sustainability in the context of an uncertain future417
E.A. Pollett

Appropriate cover systems – designing for perpetuity

Soil-vegetation feedbacks as a driver for early ecosystems development in the context of mine site rehabilitation 431
C. Hinz, W. Gwenzi, G. McGrath, E. Veneklaas, C. Scanlan

The effects of two Australian native grasses on the stability of soil cover on sulphidic gold mine tailings in the goldfields of southeastern Australia 439
A.I. Doronila, L. Yan, G.A. Narsilio, S.T.S. Yuen

Grassing techniques for surface stabilisation of platinum tailings dams in South Africa 449
S.J. van Wyk, P.W. van Deventer, P.J.L. Smit

Modified Blaney-Criddle method – an empirical approach to estimate potential evaporation using air temperature 461
G. Zhan, M. Lin Shelp

Methods for simulating measured field responses for long-term performance of mine waste cover systems473
R.E. Shurniak, M. O’Kane

Water covers for tailings and waste rock – designing for perpetuity 485
D.M. Brett

Reliability of using laboratory-determined soil water characteristic data for mine waste cover design 493
D.J. Williams, T.K. Rohde

Spatial variability of hydraulic properties on a bauxite residue disposal area in Western Australia 505
W. Gwenzi, C. Hinz, I. Phillips, I.J. Mullins

Legacy issues from abandonment to asset

Mining for medicine – cultivation of medicinal plants as a component of a mine’s social responsibility programme in South Africa	517
J. Botha	
Essential oil profiles of <i>Lippia scaberrima</i> Sond. from Highveld gold and uranium mines	529
N.S. Mokgalaka, S. Combrinck, S.P. Lepule, T.C. Regnier, I.M. Weiersbye	
Chemical analysis and potential use of the tree <i>Combretum erythrophyllum</i> grown on gold and uranium mine tailings seepage	539
T.C. Regnier, C.R. Kouekam, C.M. Leonard, S. Combrinck, N.S. Mokgalaka, I.M. Weiersbye	
Rice field cultivation on tin-mined land in Bangka Island, Indonesia	549
E. Nurtjahya, M.M. Nur, E. Mulyono	
Risk assessment for urban development of land subject to ground movements from abandoned old workings	561
J.D. St George	
Effect of mineralogical and geochemical properties on reflectance properties of waste from Sokolov open pit lignite mine, Czech Republic	569
V. Kopačková, A. Bourguignon, S. Chevrel, M. Koubová, P. Rojík	
From an open uranium mining pit to a new landscape architecture – a rehabilitation story of success	581
R. Schwarz, D. Grießl, S. Morgenstern	
South Africa’s challenges pertaining to mine closure – the problem of abandoned and derelict mines in the Mpumalanga coalfields	593
D.M. van Tonder, H. Coetzee	
Author Index	605
