

## TABLE OF CONTENTS

|                               |     |
|-------------------------------|-----|
| The University of Chile ..... | iii |
| Committees .....              | v   |
| Editorial Committee .....     | vii |
| Preface .....                 | ix  |
| Foreword .....                | xi  |

### SESSION 1: RHEOLOGY AND THICKENING

|   |     |
|---|-----|
| KEYNOTE ADDRESS   |     |
| Tailings Waste Minimisation, Rheology, and the Triple Bottom Line .....                       | 5   |
| <i>B. Hart and D. V. Boger</i>  |     |
| Understanding Feed Rheology in Nickel Laterite Processing .....                               | 29  |
| <i>F. Sofra</i>   |     |
| Laminar Flow – Possible Pipeline Operating Mode .....   | 45  |
| <i>G. Shou</i>  |     |
| Thickened Tailings Beach Deposition. Field Observations and Full-Scale<br>Flume Testing ..... | 53  |
| <i>B. Pirouz, M.R. Kavianpour and P. Williams</i>   |     |
| The “Lump” Test .....   | 73  |
| <i>D.J. Hallbom</i>   |     |
| Designing for Paste Thickening - Testwork and Sizing for Paste Thickeners ...                 | 99  |
| <i>I.M. Arbutnot and R.A. Triglavcanin</i>  |     |
| Thickening of Oil Sands Composite Tailings .....  | 117 |
| <i>R.J. Chalaturnyk, J.D. Scott, G. Wong and K. Leung</i>                                     |     |
| A Systematic Approach to Designing Paste Thickener Projects .....                             | 139 |
| <i>M. Crozier, J. Johnson and J.S. Slottee</i>  |     |
| Application of Dewatering Screens in Tailings Filtration .....                                | 147 |
| <i>J.L. Bouso Aragonés and P. Renner Berry</i>  |     |

### SESSION 2: TAILINGS TRANSPORT

|   |     |
|---|-----|
| KEYNOTE ADDRESS                           |     |
| Tailings Transport - Back to Basics ..... | 165 |
| <i>P.T. Slatter</i>                       |     |

|   |     |
|---|-----|
| Determining the Optimum Location of a High Rate Thickener for a Thickened Tailings System .....                     | 177 |
| <i>A.J.C. Paterson</i>  |     |
| High Concentration Tailings - Transportation System Optimisation .....  | 185 |
| <i>R. Cooke</i>   |     |
| Technical-Economical Feasibility of Using Centrifugal Pumps in High-Density Thickened Tailings Slurry Systems ..... | 195 |
| <i>A. Sellgren, G.R. Addie and L. Whitlock</i>  |     |

### SESSION 3: SURFACE DISPOSAL

|  |     |
|--|-----|
| Surface Paste Disposal at Bulyanhulu - Practical Lessons Learned .....   | 207 |
| <i>J.A. Shuttleworth, B.J. Thomson and J.A. Wates</i>  |     |
| Bulyanhulu Mine (Tanzania) Paste Tailings Facility: Relating the Unsaturated Properties of Gold Tailings to Rate of Rise ..... | 219 |
| <i>M. Theron, P.C. Addis, J.A. Wates and V. Martin</i>   |     |
| Overview of the Methodology Employed During the Feasibility and Trade-Off Studies and Optimum Disposal Strategy .....          | 231 |
| <i>F.J. Marais, B.J. Snyman, P.F. Lötter, P.D. Newman and J.A. Wates</i>   |     |
| High Tonnage Surface Stacking - Impediments to Implementation .....  | 251 |
| <i>F. Schoenbrunn</i>  |     |
| Cobrizas' cu Tailings Surface Stacking - A Successful Story .....  | 261 |
| <i>V. Gonzales</i>   |     |

### SESSION 4: MINE BACKFILLING

|  |     |
|--|-----|
| Cuiabá Mine Tailings and Backfill System .....   | 277 |
| <i>W. de Moura, É.A. Barbosa, W. Grobbelaar and S. Dorman</i>  |     |
| Commissioning and Operation Experience with a 400 tph Paste Backfill System at Kidd Creek Mine ..... | 299 |
| <i>C. Lee and E. Pieterse</i>  |     |
| Cabildo Mine Backfill System .....   | 317 |
| <i>R. Martinson, R. Cooke and N. Stipo</i>   |     |
| AUTHOR INDEX .....   | 331 |

## TABLE OF CONTENTS

|  |    |
|--|----|
| Tailings Paste Application in the Chilean Mining Industry .....  | 5  |
| <i>J.E. Morales</i>  |    |
| A General Reporter Review of Rheology and Thickening Papers .....  | 9  |
| <i>S. Slottee</i>  |    |
| General Reporter – Session on Surface Disposal .....   | 25 |
| <i>D. Landriault</i>   |    |
| Advances in the Race Between Paste and Other Minefill Types .....  | 39 |
| <i>H. Ilgner</i>   |    |
| Opportunities for the Chilean Mining Sustainable Development in the Use of<br>the Water Resource .....                       | 59 |
| <i>P. Renner</i>   |    |
| Aspects to be Considered in Dynamic Stability Analysis .....   | 67 |
| <i>S. Barrera</i>  |    |
| An Application of Thickened Tailings Disposal (TTD) Technology for the<br>Quebrada Chinchorro Project; Cabildo - Chile ..... | 85 |
| <i>E. I. Robinsky, R. Valdebenito and C. Cano</i>  |    |
