

# TABLE OF CONTENTS

The University of Leeds.....	iii
Committees .....	v
Editorial Committee.....	vii
Preface.....	ix
Foreword .....	xi

## SESSION 1: RHEOLOGY AND THICKENING

### KEYNOTE ADDRESS

Understanding the Thickening Process.....	5
<i>B.J. Gladman, S.P. Usher and P.J. Scales</i>	
Rheological Assessment – A Road Map for Plant Designers and Operators.....	13
<i>F. Sofra</i>	
Another Dimension to Slump .....	25
<i>A.J. Vietti and F. Dunn</i>	
Optimising Flocculation and Thickener Performance for Paste Disposal .....	37
<i>D.M. Labbett, J.D. Swift, P.J. Austin, A.R. Heath, N.S. Francis, I. Livk, P.D. Fawell, J.B. Farrow, A. Bui and M. Rudman</i>	
Rheology Control of Thickened Tailings and Paste Pumping Systems .....	47
<i>A.J.C. Paterson</i>	
A New Approach to Bauxite Residue Dry Stacking: Utilizing Ciba® RHEOMAX™ ETD Technology .....	57
<i>L.K. Kaiser, J.W. Lamperd, C. Loan and D.J. Cooling</i>	
Technical Challenges in Paste Thickener Designs with Process pH Extremes .....	69
<i>E. Hooimeyer</i>	

## SESSION 2: SURFACE DISPOSAL

### PLENARY SESSION

Tailings Management in Europe – An Industry Perspective.....	81
<i>M. Lindvall and J. Drielsma</i>	

### KEYNOTE ADDRESS

Canadian Experience in the Application of Paste and Thickened Tailings for Surface Disposal.....	93
<i>J. Oxenford and E.R. Lord</i>	
Liquefaction Potential of Surface Deposits of High-Density Thickened Tailings.....	107
<i>A.B. Fourie</i>	
The Miduk Copper Project: Down-Valley Discharge of Paste Thickened Tailings, Design and Early Operating Experience .....	117
<i>M.P.A. Williams, S.D. Murphy, L. MacNamara and N. Khoshniaz</i>	
Surface Paste Disposal of High-Sulfide Tailings – Geochemical and Geotechnical Testing.....	131
<i>R. Verburg, C. Ross, M. Dillon, P. Newman and M. Fordham</i>	
A Holistic Approach to Optimise Process Water Retention and Residue Disposal for Orapa Mines .....	147
<i>B. Busani, A.M. Copeland, R. Cooke and M. Keevy</i>	
Buyanhulu Mine (Tanzania) Paste Tailings Facility: Relating Physical and Geochemical Properties of Gold Tailings to Rate of Rise.....	157
<i>J.A. Wates, P. Rousseau and J. Shuttleworth</i>	
Stability of Tailings Beach Slopes .....	169
<i>S. Barrera and C. Riveros</i>	
Exploring Paste Technology as a Co-Disposal Option for Fly Ash and Brines.....	181
<i>S.J. Mahlaba and P.C. Pretorius</i>	
The Benefits of Paste for Coal Combustion Products (CCPs): A Case Study .....	191
<i>R.R. Jorgenson, C. Lee and R. Nelson</i>	

The Application of ‘Paste Rock’ for Cover Systems in Mine Waste Management .....	209
<i>G.W. Wilson, J. Miskolczi, A.M. Dagenais, Q. Smith, L. Lanteigne, L. Hulett and D. Landriault</i>	
A Realistic Technique to Obtain the Surface Contours of Conventional, Thickened and Paste Tailings Storage Facilities .....	221
<i>J. Engels, D. Dixon-Hardy and B. Birch</i>	
Rehabilitation of Red Mud Tailings Produced at the Aughinish Alumina Refinery .....	235
<i>R. Courtney</i>	
Disposal of Belt Filtered Tailings-Skorpion Zinc Case Study: Feasibility, Design and Early Operation .....	243
<i>A.M. Copeland, K.A. Lyell and P. van Greunen</i>	
A Laboratory Study of the Hydro-Geochemical Behaviour of Paste Tailings Disposal.....	255
<i>T. Deschamps, M. Benzaazoua, B. Bussière, T. Belem and M. Aubertin</i>	
Evaporation from Surface Deposited Thickened Gold Tailings .....	267
<i>P. Simms, M. Grabinsky and G. Zhan</i>	

### SESSION 3: MINE BACKFILL

#### KEYNOTE ADDRESS

They Said “It Will Never Work” – 25 Years of Paste Backfill 1981 – 2006 .....	277
<i>D. Landriault</i>	
Extraction of Two Sill Pillars Under Paste Backfill at Louvicourt Mine, Canada.....	293
<i>C. Doucet, S. Lampron, B. Bisson and R. Harrison</i>	
Paste Backfill at Garpenberg North Mine .....	303
<i>T. Lindqvist, A. Nyström, P. Brodin and L. Norling</i>	
Mechanics of Early Age Cemented Paste Backfill.....	313
<i>M. Helinski, A.B. Fourie and M. Fahey</i>	
Self-Desiccation of Cemented Paste Backfill and Implications for Mine Design.....	323
<i>M. Grabinsky and P. Simms</i>	
Characterisation of Self-Weight Consolidated Paste Backfill.....	333
<i>T. Belem, O. El Aatar, B. Bussière, M. Benzaazoua, M. Fall and E. Yilmaz</i>	
Design and Commissioning of the Lisheen Backfill Plant .....	347
<i>A. Shaw and L. MacNamara</i>	
Some Practical Aspects of Downtime and Their Causes in the Paste Plant at Zinkgruvan Mine, South-Central Sweden .....	359
<i>K. Tillman</i>	

### SESSION 4: TRANSPORT ISSUES

Thickened and Paste Tailings Pipeline Systems: Design Procedure – Part 1 .....	371
<i>R. Cooke</i>	
The Slide – A Simple Way to Design Paste Lines .....	383
<i>D.J. Hallbom and J.P. Chapman</i>	
The Ups and Downs of Paste Transport.....	395
<i>L. Pullum, L.J.W. Graham, M. Rudman, B. Aldham and R. Hamilton</i>	
Paste Pumping with Centrifugal Pumps: Evaluation of the Hydraulic Institute Chart De-Rating Procedures.....	403
<i>G. Sery, B. Kabamba and P. Slatter</i>	
Practical Aspects of Transporting Pastes with Rotodynamic Slurry Pumps.....	413
<i>M.J. Bootle</i>	
Turbulent Flow of Non-Newtonian Tailings in Self Formed Channels on Tailings Stacks .....	429
<i>A.G. Chryss, T.G. Fitton and S.N. Bhattacharya</i>	
Author Index .....	439
