

TABLE OF CONTENTS

Australian Centre for Geomechanics.....	iii
Flow Process Research Centre, Cape Peninsula University of Technology	iv
Committees	v
Preface.....	vii
Foreword	ix
Sponsors.....	xi

Session 1: Environmental

Keynote Address

Making an Unsustainable Industry More Sustainable	3
<i>D.V. Boger & B.C. Hart, Department of Chemical and Biomolecular Engineering, University of Melbourne, Australia</i>	

Keynote Address

Climate Change and Paste – Perceptions, Challenges and Opportunities	15
<i>D. Lesolle, Department of Meteorological Services, Botswana</i>	

Water Recovery from Slimes on Debswana’s Mines	23
<i>D. Stephenson & P. Odirile, University of Botswana, Botswana</i>	

Debswana’s Current and Future Water Management Challenges in Botswana.....	29
<i>M.C. Brook, Debswana Diamond Company, Botswana</i>	

Prediction of the Infiltration from Thickened Tailings to the Natural Ground.....	39
<i>J. Moreno & M. Palape, SRK Consulting Chile S.A., Chile</i>	

Influence of Admixtures on Paste Behaviour and the Role of Surface Area on Remobilisation.....	51
<i>J.S. Mahlaba, P.C. Pretorius & M.P. Augustyn, SASOL Technology R&D (Pty) Ltd, South Africa</i>	

Session 2: Thickening

Keynote Address

The Heart of Thickener Performance	63
<i>R.A. Triglavcanin, Outotec Pty Ltd, Australia</i>	

Underflow Rheology Optimisation to Enhance Thickener Performance	83
<i>S.J. Adkins, Ciba UK PLC, United Kingdom</i>	

Sizing Paste Thickeners from Pilot and Laboratory Data	97
<i>I. Arbuthnot, Outotec Pty Ltd, Australia</i>	

The Debswana Prototype Paste Thickening Campaign – A Case Study	103
<i>N. Dambe & M. Cooks, Debswana Diamond Mining Company, Botswana, A.J. Vietti, Paterson and Cooke, South Africa, B. Busani & J. Dodo, Debswana Diamond Mining Company, Botswana</i>	

The Effect of Water Quality on Dewatering Properties of Debswana Kimberlitic Ores.....113
K. Ntshabele, M. Cooks, B. Busani and J. Dodo, Debswana Diamond Mining Company, Botswana

Paste Thickener Operation of Fine Coal Tailings..... 125
S. Slottee & J.L. Johnson, PasteThick Associates, United States of America

Modelling the Effect of Pre-Concentration and Paste Thickening on Water Usage for the Processing of Platinum Ores.....131
H. Dong & A.L. Hinde, Council for Mineral Technology (Mintek), South Africa

Session 3: Surface Disposal

Keynote Address

Surface Disposal of Paste and Thickened Tailings – A Brief History and Current Confronting Issues143
M.P.A. Williams, K.D. Seddon & T.G. Fitton, Australian Tailings Consultants, Australia

State of Practice for Tailings Thickening in the State of Nevada, USA165
B.F. Ulrich, Knight Piésold and Co., United States of America

Alternatives to Paste Disposal with Lower Water Consumption..... 171
K.A. Lyell, Consulting Engineer, South Africa, A.M. Copeland, Anglo Technical Division, South Africa & G.E. Blight, University of the Witwatersrand, South Africa

Prediction of the Beach Profile of High-Density Thickened Tailings from Rheological and Small-Scale Trial Deposition Data179
G.I. McPhail, Metago Environmental Engineers (Australia) Pty Ltd, Australia

Esperanza Project – Drivers for Using Thickened Tailings Disposal 189
D. Luppnow, SRK Consulting, Australia, J. Moreno, SRK Consulting Chile S.A., Chile & L. Bernal, Antofagasta Minerals PLC, Chile

Rheomax™ Modified Tailings Disposal at Welbeck Colliery 199
M. Brumby & J. Brough, UK Coal, United Kingdom, I. Flanagan, Ciba UK plc, United Kingdom

Electrokinetic Strengthening of Tailings211
J. Lamont-Black, D.T. Huntley & C.J.F.P. Jones, Electrokinetic Ltd, United Kingdom, S. Glendinning & J. Hall, Newcastle University, United Kingdom

Session 4: Transport

Paste and Thickened Tailings and the Impact on the Development of New Rheological Techniques..... 225
D.V. Boger & P.J. Scales, Department of Chemical and Biomolecular Engineering, University of Melbourne, Australia, F. Sofra, Rheological Consulting Services Pty Ltd, Australia

Laminar Sheet Flow of Paste Material.....	237
R. Haldenwang & P.T. Slatter, Cape Peninsula University of Technology, South Africa & R.P. Chhabra, Indian Institute of Technology, India	
Non-Newtonian Open Channel Flow – A Simple Method of Estimation of Laminar/Turbulent Transition and Flow Resistance.....	245
T.G. Fitton, Australian Tailings Consultants, Australia	
Turbulent Pipe Flow of Yield Plastic Fluids	253
D.J. Hallbom, Pipeline Systems Incorporated, Canada	
Design of a Thickened Tailings Pumping and Distribution System for the Esperanza Project	267
M. Vega, JRI Ingeniería S.A., Chile	
Thickened and Paste Tailings Pumping Systems for Orapa Mine.....	275
M. Keevy, Paterson and Cooke, United States of America, B. Busani, Debswana Diamond Company, Botswana & R. Cooke, Paterson and Cooke, United States of America	
Use of Fly Ash to Treat Acid Mine Drainage Before Use in Backfill Operations	285
V.G. Fester & P.T. Slatter, Cape Peninsula University of Technology, South Africa, V.R.K. Vadapalli & L. Petrik, University of the Western Cape, South Africa	
Description of Non-Intrusive Sonar Array-Based Technology and its Application to Unique and Difficult Slurry and Paste Flow Measurements.....	299
C.V. O'Keefe, R.J. Maron, P.J. Rothman & J. Poplawski, CiDRA Corporation, United States of America	
Session 5: Case Studies	
Design Considerations for the Big Gossan 300 Tonnes per Hour Paste Backfill Plant System	317
E. Ansah-Sam, C. Lee, Golder Paste Technology Ltd, Canada & S. Hewitt, PT Freeport Indonesia, Indonesia	
Integration of Paste Management Within a Mining Project to Respond to Operational and Permitting Needs – The Aguas Teñidas Mine in Southern Spain	327
G. del Pozo, F. Fimbres, Minas de Aguas Teñidas SA, Spain, S. Wilson, Golder Paste Technology (Europe) Ltd, United Kingdom, A. Gutierrez del Olmo & A. Darby, Golder Associates Ibérica, Spain	
Tailings Disposal at Quebrada Honda Toquepala	337
B. Serpa & H.J. Walqui, Southern Peru Copper Corporation, Peru	
Rheomax™ and Water Conservation at Orapa Mine	353
A.J. Vietti, Paterson and Cooke Consulting Engineers, South Africa, R. Cooke, Paterson and Cooke Consulting Engineers, United States of America, K. Ntshabele, M. Cooks & B. Busani, Debswana Diamond Company, Botswana	

Case Study on Challenges Experienced by BCL Concentrator on Thickened Tailings Disposal	365
<i>J. Makamba & G.P.T. Dzinomwa, BCL Ltd, Botswana</i>	
Sandfill Operations – Challenges and Benefits to BCL Ltd	371
<i>M. Gumbie, W.Z. Giwa, M. Moroka, M. Bogopa & G.P.T. Dzinomwa, BCL Ltd, Botswana</i>	
Ciba® Rheomax™ ETD Technology Evaluation on Chrome Thickener Underflow for Enhanced Tailings Management	377
<i>R.R. Daubermann & Z. Földvári, Senmin International Pty Ltd, South Africa</i>
