Foreword	xi

Session 1: Rock Slope Design

Keynote Address

Hydromechanical Coupling and Pit Slope Movements.....	3
T. Sullivan, Pells Sullivan Meynink Pty Ltd and The University of New South Wales, Australia	
Mining Rock Mass Models – A Methodology for Collecting, Processing and Presenting Geotechnical Data in Three Dimensions	45
C. Seymour, G. Dempers & P. Jenkins, Dempers & Seymour Pty Ltd, Australia	
Geotechnical Characterisation of Waste Material in Very High Dumps with Large Scale Triaxial Testing	59
S. Linero & C. Palma, SRK Consulting, Chile, R. Apablaza, Codelco Andina Division, Chile	
Slope Stability Considerations in Integrated Surface Mine Design	77
M. Grenon, J. Hadjigeorgiou & P. Côté, Université Laval, Canada	
Pit Slope Design and Structural Analysis at the Jericho Diamond Mine Utilising Digital Photogrammetric Mapping.....	93
J. Mathis, Zostrich Geotechnical, USA	
Obtaining Appropriate Design Parameters for Slopes in Weathered Saprolites.....	105
A. Fourie, Australian Centre for Geomechanics, Australia, A. Haines, SRK Consulting, Australia	
Tarkwa Gold Mine, Ghana, West Africa – A Case Example of Upgrading the Reliability of Reserves by Improved Accounting for Structural Geology in Pit Designs	117
G. Avane, Goldfields of Ghana Ltd, West Africa, A. Saayman, Xamine Consulting Services, Australia	
Dealing with Uncertain Parameters in Rock Slope Stability Analysis.....	129
M. Pötsch, G. Pischinger & W. Schubert, Institute for Rock Mechanics and Tunneling, Graz University of Technology, Austria	
Establishing Slope Design Criteria at Batu Hijau – A Case Study.....	143
S. Leech, PT Newmont Nusa Tenggara, Indonesia	
Risk Based Slope Design for Opencast Coal Mines at Rotowaro, Huntly, New Zealand	157
J. Johnson, Tonkin & Taylor Ltd, New Zealand, D. Fergusson & G. Guy, Solid Energy NZ Ltd, New Zealand	
Rock Mass Reinforcement Systems in Open Pit Excavations in Urban Areas	171
Ž. Arbanas & M. Grošić, University of Rijeka, Croatia, M. Kovačević, University of Zagreb, Croatia	

Session 2: Numerical Modelling of Rock Slope

Keynote Address

Slope Stability in High Stress and Hard Rock Conditions.....	187
T. Stacey, University of the Witwatersrand, South Africa	

Keynote Address

Open Pit Problems in Engineering Practice.....	201
A. Karzulovic & R. Sepúlveda, A. Karzulovic & Asoc. Ltda., Chile	
Extension, Stress and Composite Failure in Bedded Rock Masses	213
J. Simmons, Sherwood Geotechnical and Research Services, Australia, P. Simpson, BHP Billiton Mitsubishi Alliance Coal Pty Ltd, Australia	

Developing a Numerical Model for a Deep Open Pit	225
E. Hamman, AngloGold Ashanti Australia Ltd, Australia, M. Coulthard, M.A. Coulthard & Associates, Australia	
Modelling Brittle Fracture in Rock Slopes – Experience Gained and Lessons Learned	239
D. Stead, Simon Fraser University, Canada, J. Coggan, Camborne School of Mines, University of Exeter, UK, D. Elmo & M. Yan, Simon Fraser University, Canada	
The Importance of Intact Rock Bridges in the Stability of High Rock Slopes – Towards a Quantitative Investigation Using an Integrated Numerical Modelling; Discrete Fracture Network Approach	253
D. Elmo, M. Yan & D. Stead, Simon Fraser University, Canada, S. Rogers, Golder Associates Ltd, Canada	
Application of Hybrid Finite/Discrete Element Modelling for Back-Analysis of Rock Slope Failure Mechanisms	267
J. Coggan, R. Pine & T. Styles, Camborne School of Mines, University of Exeter, UK, D. Stead, Simon Fraser University, Canada	
Improved Blasting and Bench Slope Design at the Aitik Mine.....	279
P. Marklund, Boliden Mineral AB, Sweden, J. Sjöberg, Vattenfall Power Consultant AB, Sweden, F. Ouchterlony, Swebrec at Luleå University of Technology, Sweden, N. Nilsson, Nitro Consult AB, Sweden	
Numerical Assessment of Step-Path Failure of Northwest Wall of A154 Pit, Diavik Diamond Mines	293
A. Karami & R. Beddoes, Golder Associates Ltd, Canada, S. Greer, Diavik Diamond Mines Inc., Canada	
Three-Dimensional Discontinuum Analysis of Structurally Controlled Failure Mechanisms at the Cadia Hill Open Pit	307
D. Sainsbury, Itasca Australia Pty Ltd, Australia, F. Pothitos, Ok Tedi Mining Ltd, Papua New Guinea, D. Finn, Newcrest Mining Ltd, Australia, R. Silva, Itasca S.A., Chile	
Transition from Surface to Underground Mining – Understanding Complex Rock Mass Interactions Through the Integration of Mapping, Monitoring and Numerical Modelling Data.....	321
E. Eberhardt, University of British Columbia, Canada, D. Stead, D. Elmo, M. Sturzenegger & A. Vyazmensky, Simon Fraser University, Canada, W. Dunbar, M. Scoble, R. Tollenaar, H. Eissa & C. O'Connor, Norman B. Keevil Institute of Mining Engineering, University of British Columbia, Canada, A. van As & A. Moss, Rio Tinto plc, UK	
Monitoring of a Large Wall Failure at Tom Price Iron Ore Mine	333
A. Day & J. Seery, Rio Tinto Iron Ore, Australia	
Slope Design Criteria for Large Open Pits – Case Study	341
F. Pothitos, Ok Tedi Mining Ltd, Papua New Guinea, T. Li, Newcrest Mining Ltd, Australia	

Session 3: Rock Slope Stability

Keynote Address

Rock Slope Stability Research.....	355
J. Read, CSIRO Exploration and Mining, Australia	
Fact and Fiction About Pit Slope Depressurisation	361
J. Harman, E. Hormazabal & C. Martinez, SRK Consulting, Chile	
Depressurisation of Open Pit Walls – A Practical Example from the South East Prongs Pit, Tom Price, Western Australia	371
J. Williams, S. Rathbone & L. Campbell, Rio Tinto Iron Ore, Australia	
Rockfall Management at the Savage River Mine.....	379
B. Hutchison & M. Widelski, Australian Bulk Minerals, Australia	
Dealing with Rockfall Issues at Argyle Diamond Mine Open Pit Operation.....	393
U. Gunasekera, Argyle Diamonds Ltd, Australia	
Wall Optimisation – A Case Study from the Fimiston Open Pit, Kalgoorlie Consolidated Gold Mines.....	403
A. Beer, Coffey Mining Pty Ltd, Australia, M. Murrongello, Kalgoorlie Consolidated Gold Mines Pty Ltd, Australia	

Monitoring of Open Pit Mines Using Combined GNSS Satellite Receivers and Robotic Total Stations	417
<i>N. Brown, S. Kaloustian & M. Roeckle, Leica Geosystems, Switzerland</i>	
Use of an Excavation Compliance Indicator to Assess Conformance to Slope Design	431
<i>J. Seery & J. Lapwood, Rio Tinto Iron Ore, Australia</i>	
Monitoring Landslide Movement and Triggering Factors in Near Real-Time – Examples from Translational Landslides in New Zealand	439
<i>C. Massey & N. Palmer, GNS Science, New Zealand</i>	
Understanding the Bigger Picture – Interpretation of Geological Structure in Open Pit Rock Slope Stability	449
<i>R. Oldcorn, MWH, New Zealand, R. Seago, SRK Consulting, UK</i>	
Pit Slope Design in Pilbara Iron Deposits – Deposit A West Angelas, Western Australia	463
<i>M. Eggers, Pells Sullivan Meynink Pty Ltd, Australia, D. Casparis, Rio Tinto Iron Ore, Australia</i>	
Risk Evaluation of Slope Failure at the Chuquicamata Mine.....	477
<i>A. Tapia, Codelco Norte, Chile, L. Contreras & O. Steffen, SRK Consulting, South Africa, M. Jefferies, Golder Associates Ltd, Canada</i>	

Poster Session

A Geotechnical Toolbox to Maintain Ramp Access and Reduce Rockfall Risk at Sunrise Dam Gold Mine	499
<i>M. Cowan, M. Campbell & E. Hamman, AngloGold Ashanti Australia Ltd, Australia</i>	
Photogrammetry Plus Computer Vision for Rock Mass Characterisation, Bench Face Surveying and Blast Planning.....	511
<i>A. Gaich, 3G Software & Measurement GmbH, Austria, M. Pötsch & W. Schubert, Institute for Rock Mechanics and Tunnelling, Graz University of Technology, Austria</i>	
Rock Slope Stability Assessment Based on Limit Analysis	527
<i>A. Li & R. Merfield, The University of Western Australia, Australia</i>	
A Case Study of Managing and Reporting Risks in a Multi-National Company	533
<i>D. Quinlivan, ModuSpec Australia Pty Ltd, Australia, T. Lewis, Risk and Crisis Management Systems Consultant, Australia</i>	
Authors Index.....	543
