iii	Australian Centre for Geomechanics
v	Technical Reviewers
vii	Preface
ix	Sponsor and Collaborating Organisations

Strategic Planning and Scheduling

3	Keynote Address: Production rate optimisation – avoiding the temptation of tonnage <i>P. McCarthy, AMC Consultants Pty Ltd, Australia</i>
11	Robust mine planning <i>T.J. Elkington, Snowden Mining Industry Consultants; and The University of Western Australia, Australia; F.C. Grobler, Xstract Mining Consultants; and Curtin University, Australia</i>
21	Geotechnical data – a strategic or tactical issue? <i>M.J. Dunn, F.R. Basson, T.T. Parrott, Newmont Asia Pacific, Australia</i>
31	A tactical way to support the long-term mining plans production capacities <i>J.M. Castro, M. Larraín, Codelco, Chile</i>
41	An alternative mining method at the Kvannevang Mine, northern Norway <i>S. Nævermo Sand, Rana Gruber AS, Norway</i>

Underground Geomechanics Strategies and Tactics

55	Strategic management for squeezing ground conditions at the Argyle Diamonds block cave project <i>F. Fernandez, G. Watt, J. Ooi, Rio Tinto Technology and Innovation, Australia</i>
73	Rock mass response to deep mining induced stress—research and tools development at the CEMI, Canada <i>D.J. Duff, B. Valley, Centre for Excellence in Mining Innovation, Canada; B. Milkereit, Department of Physics, University of Toronto, Canada; J. McGaughey, Mira Geoscience, Canada</i>
85	Simple calibration of the extension strain criterion for its use in numerical modelling <i>V. Louchnikov, Coffey Mining Pty Ltd, Australia</i>
97	Shotcrete – how to fill the gap? <i>P. Ferland, Areva NC, France; A. Fuller, New Gold Inc., Australia</i>
129	The absence of strategy in orepass planning, design and management <i>J. Hadjigeorgiou, Lassonde Institute for Mining, University of Toronto, Canada; T.R. Stacey, School of Mining Engineering, University of the Witwatersrand, South Africa</i>
141	Assessment of re-entry analysis procedures at an Australian mine <i>N. Pope, The University of Western Australia, Australia; J. Wesseloo, Australian Centre for Geomechanics, The University of Western Australia, Australia; M. Owen, Owen Risk Engineering, Australia</i>
159	A community based seismic system for obtaining regional and local seismic data of strategic importance <i>J. Wesseloo, Australian Centre for Geomechanics, The University of Western Australia, Australia; M.R. Hudyma, School of Engineering, Laurentian University, Canada; P. Harris, Australian Centre for Geomechanics, The University of Western Australia, Australia</i>
169	Strategic and tactical use of a community based regional seismic monitoring system <i>M.R. Hudyma, School of Engineering, Laurentian University, Canada; J. Wesseloo, Australian Centre for Geomechanics, The University of Western Australia, Australia</i>
179	Rockfall risk — how well do we understand the consequences of the decisions we make? <i>L. Rwodzi, University of the Witwatersrand; and Seismogen cc, South Africa; W. Joughin, SRK Consulting, South Africa; T.R. Stacey, School of Mining Engineering, University of the Witwatersrand, South Africa</i>
195	Some observations on underground mining strategies <i>Y. Potvin, Australian Centre for Geomechanics, The University of Western Australia, Australia</i>

Environmental Strategies and Tactics

- 205 Commercialisation of rangeland carbon offsets by resource companies
M. Alchin, M. Braimbridge, D. Jasper, B. Hay, H. Lacy, Outback Ecology, Australia
- 211 Strategic planning versus tactical response effort for mine closure
K. Knight, T.M. Hassell, URS Australia Pty Ltd, Australia

Education and Research and Development

- 225 **Keynote Address:** Mining research and development — tactical versus strategic
P.A. Lilly, Office of Research and Development, Curtin University, Australia
- 231 A renaissance for mining research in South Africa?
D. Vogt, CSIR Centre for Mining Innovation, South Africa
- 247 Mining education – achievements and challenges
B. Hebblewhite, School of Mining Engineering, The University of New South Wales, Australia; P. Knights, Mining Education Australia, The University of Queensland, Australia
- 261 Global mining schools – poised for strategic growth
S. Hall, Western Australian School of Mines, Curtin University, Australia
- 267 The use of a wiki format to compile mine design knowledge — what’s in it for you?
G.D. Lyle, Centre for Excellence in Mining Innovation, Canada; S.D. McKinnon, Queen’s University, Canada; G.J. Mclsaac, Geology and Mining Evaluation Consulting, Chile; A.A. Dasys, Objectivity, Canada

Management, Financial, Value Adding

- 277 Strategic and tactical determinants for South African platinum-group-metals supply
J.E. McGill, CSIR Centre for Mining Innovation, South Africa
- 293 Defining a strategy to manage the mineral asset
A.S. Macfarlane, Macsim Mining Consultancy Services; and Tomahee Consulting/Graphic Mining Solutions International, South Africa
- 307 Mine planning case studies demonstrating value from geometallurgy initiatives
A.R. Bye, CRC for Optimising Resource Extraction Limited, Australia

Open Pit Strategies and Tactics

- 331 Addressing geotechnical data uncertainty and risk in open pit slope design
J.R.L. Read, John R Read Associates Pty Ltd, Australia
- 339 Determining waste mining capacities for open pit mines
J.T. Jordaan, Kumba Iron Ore, Anglo American plc, South Africa

Risk Management

- 349 Strategic and tactical risk in mining
P.J. Bartlett, South Africa
- 359 Block caving strategic risks
R.J. Butcher, M. Fallon, Barrick Gold of Australia Ltd, Australia
- 367 Occupational health and safety management systems for geotechnical risk
A. Atkins, Resources Safety Division, Western Australian Department of Mines and Petroleum, Australia; T. Webster-Smith, Sustainability Pty Ltd, Australia
- 377 Author Index
